

Euroacademia Multidisciplinaria Neurotraumatologica

Presidium executive meeting Paris Sept. 2004

Klaus von Wild, David Mendelow and Jacques de Reuck discussed future Congresses and Workshops at the Paris EFNS meeting at the beginning of September. It was thought useful to summarise the venues and dates:

Rotterdam May 19-21 '05
Warsaw May '06
Italy May '07

Workshops are planned to coincide with other European meetings

ROTTERDAM 2005

The next EMN congress promises to be a highlight of the Academic year of 2005. Under the Leadership of Andrew Maas we will undoubtedly have a productive and memorable meeting in the Netherlands. The life blood of the EMN is the Annual Congress and each of the last 9 has been a success: the 10th represents a milestone in the history of our

Ready for Rotterdam?

Deadline for abstracts is 1st of February 2005

unique academy. Andrew has arranged for abstracts to be submitted electronically, a method pioneered in Bucharest by Alexander Vlad Ciurea and his colleague Ferry Stoica.

Early registration is discounted and there is a special discounted registration fee for EMN members.

EBIS members will be welcome at the EMN meeting in Rotterdam as the 2 organisations move closer in a bid to amalgamate in the future.

MEMBERSHIP DRIVE

In Bucharest we agreed that each member of our EMN would think about nominating one other academic neurotraumatologist: HAVE YOU THOUGHT OF ANYONE YET? Please send a CV to Angelika Mautes (angelika.mautes@emn.de). It is useful to have a few sentences from the proposer who must be a full EMN member. All nominations will be considered at the Presidium meeting in Rotterdam and successful applicants will be announced and confirmed at the full members meeting at the start of the Congress .

EMN WORKSHOP

There will be a joint EMN EFNS workshop in Athens at the EFNS meeting September 20th 2005 organised by our Honorary President

Focused Workshop 12:

"Whiplash Injury" - traumatic distortion of the cervical spine

Klaus R.H. von Wild, Münster, Germany

Dusan Butinar, Ljubliana, Slovenia
